***Oath/Declaration***

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the foreign application for patent or inventor's certificate on which priority is claimed pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application number, country, day, month and year of its filing.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Bryan et al. (20050059976).

With respect to claim 5, Bryan et al disclose a marking and guidance system for use during spinal surgery, comprising a means (206) for marking a location of an entry point on a vertebral bone for subsequent implantation of a securing member of a spinal fixation device; as set forth in para [0222], [0234], [0273], [0274], [0280], [0291].

With respect to claims 6,7, Bryan et al disclose all the limitations, as set forth in para [0222], [0234], [0273], [0274], [0280], [0291].

***Allowable Subject Matter***

Claims 1-4,8-14 are allowed.

***Response to Amendment***

Applicant's arguments with respect to claims 5-7 have been considered but are moot in view of the new ground(s) of rejection.
